

CRITICAL INFORMATION SUMMARY

NBN Fibre & Fixed Wireless Broadband Service

Information About the Service

Description of the Service

MedicCom Fibre Broadband service is deliverable over NBN Fibre or Fixed Wireless Infrastructure. Fibre uses the NBN Optical Fibre Access Network to deliver Internet connectivity at the Network Boundary Point at your premises. Fixed Wireless services use the NBN Fixed Wireless Customer Access Network to deliver Internet connectivity at the Network Boundary Point at your premises.

Mandatory Component of the Service

There are no mandatory components of the NBN service. The NBN Fibre and Wireless Broadband services MedicCom provides are supplied as pure stand-alone Fibre Broadband only services. MedicCom does provide you the option of adding a VoIP based phone service at additional charge (number and calls) but this is not mandatory for you to select this option.

Minimum Contract Term

12 Months

Limitations/Qualifications for the Service MedicCom NBN Broadband and optional Phone services (based on the NBN network) are not available in all areas or premises. There may be technical or commercial reasons that affect our ability to connect a service at your address. Please visit the MedicCom website to check your service availability or contact our Sales Team via sales@mediccom.com.au

The download and upload speeds stated are the maximum that each type of link can deliver and will rarely, if ever, be achieved by any user for all sorts of reasons. MedicCom makes no guarantees of any kind on the actual speeds that will be achieved by any individual users as we rely on our fibre supplier to ensure its services are provisioned to deliver optimum speeds at all times. Should any user not receive speeds consistent with their distance from the exchange then MedicCom will allow such a customer to cancel their service without penalty. Speeds that customers experience on fibre based services in practice have tended to be affected by the following internal and external factors:

- The number of individual end-users at a residence using the service at the same time.*
- The end-user's network, operating system, hardware, software and software configuration (E.g. – router/firewall configuration).*

- The connection method within the premises (wireless or fixed).
- The type of content being downloaded by the end-user.
- The source of the content (the destination host) being downloaded (including any content server limitations).
- Domestic backhaul capacity & International links capacity.

Compatible Router Required

In order to use this service, you will need a router / modem / firewall that is compatible with the relevant NBN service.

MedicCom will supply the NBN certified VDSL compatible ZTE H1600 modem free on both contract terms however a \$20 freight charge would be applicable. If the service is cancelled within 12 months of service then the modem claw back fee of \$171 is charged on a pro rate basis is also applicable.

Information About Pricing

Line Activation Charge

A once off Line Activation Charge of \$50.00 will apply.

Monthly Charges

Our commitment terms and rates are negotiated on a case by case basis with each customer, allowing MedicCom to provide a bespoke customer service experience.

Once your initial contract term has expired, your monthly charge will continue to be charged (including the cost of the phone calls) on a month by month basis until you have either changed to a new MedicCom plan or until you decide to cancel your service.

Early Termination Charge

If for whatever reason, the service is cancelled before the end of the 12 month contract period then a maximum early termination charge of \$100.00 will apply.

Data Usage Charges

The speed will be shaped to 1024/384 kbps once you exceed your monthly data allowance until the next billing cycle. No excess usage charges will apply on your broadband service.

Unmetered Usage Policy

'Unmetered': where the amount you download or upload will not be counted and you will not be billed for any data used during the specified period.

Credit Card Surcharge

A credit card surcharge of \$3.00 will apply per month for all credit card payments. If you wish to avoid this charge, please select the Direct Debit option.

Plan Changes

You can move to any of the plans that are listed on your MedicCom website or contact sales@mediccloud.com.au to be provided with a bespoke solution. A change of plan fee of \$25.00 applies along with a new 12 month contract term from the date of the change of plan.

Other Information

MedicCom Members Facilities

You will be provided with a secure Members portal where you will be able to view your daily data and call usage for your MedicCom service. You will also be able to track all your MedicCom invoices, make changes to your existing service and buy new services from this portal.
